Process Improvement - Simply Stated - Graco Saniforce

- **IMPROVE** residual waste and reclaim costs. Inflatable Seal designs on the drum and bin unloaders allow for 99% evacuation rates of high viscosity materials. [Watch it in Action Here](#)
- **IMPROVE** sanitary material handling. 3A certified, and FDA compliant pumps. Closed systems prevent material contamination during transfer.
- **IMPROVE** labor costs. On demand air operated drum and bin unloading systems allow hands off operation once the system is loaded which reduces the required labor for an application.
- **IMPROVE** speed. Piston pump designs are available to transfer high viscosity materials.
- **IMPROVE** ergonomics and safety. Eliminate shoveling, lifting, dumping, and scraping when transferring materials.

Sanitary and Food Grade Drum and Bin Unloaders

TYPICAL PRODUCTS HANDLED

- Tomato Paste
- Peanut Butter
- Candy Fillings
- Juice Concentrates
- Condiments
- Personal Care Products
- Cosmetics
- Dairy Products

Drum Unloaders

Unload materials from straight or tapered drums. Inflatable wiper seals for increased efficiency.

Sanitary flange clamps for quick disassembly.
Piston pumps or Diaphragm pumps

Bin Unloaders

Evacuate materials from 300 gallon containers without adding water. Inflatable wiper seals like the Drum Unloader

Available with two sanitary diaphragm pumps or up to four sanitary piston pumps.
