The Fastest Fill, Flush and Material Changeover in the Industry!

With more and more woodshops doing custom, batch and one-off jobs, what is the most frustrating part? The Finish! Not the actual spraying, but the setup and cleaning to get ready for the next job. But with the NEW Graco Merkur ES system the Fill time is reduced to mere seconds, and the flush time is an impressive 59 seconds! The New Merkur ES also uses the least material to fill with a 3/8" pickup tube, and an 1/8" fluid hose using up to 50% less material than competitor pumps. Couple this fast and easy system with an optional fine finish tip for a spray system superior to the competition.

Merkur ES Features:

- **FAST fill time. Uses just 6.7 oz of material at start up**
- **FAST flush time. Just 59 seconds, and uses 20% less solvent than competitors**
- **EASY to use Fluid and Air controls**
- **EASY to move with an integrated carrying handle**
- **VERSITILE, with pumps in 15:1 & 30:1 ratio's and 1,500 & 3,000 psi as Portable or Wall mounted versions**
